TAMMY BALDWIN
WISCONSIN**United States Senate**

WASHINGTON, DC 20510

COMMITTEES:
APPROPRIATIONS
COMMERCE
HEALTH, EDUCATION,
LABOR, AND PENSIONS

Dear Dr. Hester:

Thank you for contacting me to share your concerns regarding the Trump administration and the threat of climate change. I appreciate you taking the time to write me on this matter.

This year, I've heard from thousands of constituents who have written to share their support for taking action on climate change in Wisconsin and across our country. These emails and letters address concerns about the effects of air toxins on public health. They also demonstrate the commitment people from every corner of our state have to ensuring that our land and water resources are safeguarded for future generations.

I have also heard from many who are concerned by comments made by President Trump denying the causes of climate change. Like you, I believe that climate change is a serious threat to the natural resources, wildlife, and economic drivers of Wisconsin and the rest of the world. Because of the massive impact climate change will have, the dangers are too great to be ignored and the United States must respond to this global challenge.

While many in President Trump's administration deny the existence of climate change, I will fight against attempts in the Senate to roll back important laws that protect our air and water, and reduce harmful carbon emissions. This fight will include my continued support for measures that will expand the American solar, wind, and biofuel industries, as well as the Clean Power Plan and the Paris Agreement.

Your input on climate change will help inform my view as these matters come before me in the Senate.

Once again, thank you for contacting my office. It is important for me to hear from the people of Wisconsin on the issues, thoughts and concerns that matter most to you. If I can be of further assistance, please visit my website at www.baldwin.senate.gov for information on how to contact my office.

Sincerely,

Tammy Baldwin
United States Senator
